

# AGRICULTURAL/CIVIL ENGINEER GRADUATE VACANCY

Danroc (Pty) Ltd seeks to employ a dynamic and qualified Agricultural/Civil Engineer graduate with proven ability in the agricultural environment. The successful candidate will oversee all design aspects within the Projects Department. The position will report directly to the Projects Head with the key tasks being:

- Irrigation design and layouts
- Pumphouse/Cluster house layouts
- Farm Infrastructure design
- Project material procurement

## MINIMUM REQUIREMENTS:

- Agricultural/Civil Engineering Qualification.

## TO BE SUCCESSFUL IN THIS ROLE YOU WILL NEED THE FOLLOWING CORE SKILLS:

- Quantative analysis
- Attention to detail
- Problem solving
- Communication

The candidate must understand the unique challenges and opportunities within modern agriculture and be willing to work in a rapidly changing environment.

Although the post is available immediately, the company will be negotiable on a suitable starting date. The position offers a market related remuneration package.

Only shortlisted candidates will be contacted.

**Applications and CV's must reach [denise@danroc.co.za](mailto:denise@danroc.co.za) by 28 February 2022.**
