Membership Classes

Honorary Fellows

- 2.2. Honorary Fellows shall be persons to whom the Institute delights to do honour by virtue of their special services to- and promotion of the Institute and the agricultural engineering profession or because of their outstanding achievements in related engineering- or scientific fields.
- 2.2.1. If such Honorary Fellows meet the requirements for election as Fellows, then these Honorary Fellows will also be Corporate Members.

Fellows

- 2.3. Candidates for election as Fellows must be at least 30 years old and they shall: -
 - 2.3.1. hold a degree in Agricultural Engineering or a relevant engineering filiation of a South African university or a university recognised by the Council; or be registered with the South African Engineering Council (ECSA) as a Professional Engineer. and
 - 2.3.2. at the time of application for membership of the Council satisfy them that they have been working actively for a period of at least five (5) years as agricultural engineers or engineers in closely related engineering disciplines in positions which, according to the Council, will justify their election' or
 - 2.3.3. hold a technological diploma of BTech degree in agricultural engineering or a closely related engineering discipline of a South African Technikon or a technical institution recognised by the Council; or be registered with the South African Engineering Council (ECSA) as engineering technologist. and
 - 2.3.4. at the time of application for membership of the Council satisfy them that they have been working actively for a period of at least six (6) years as technologists in agricultural engineering or closely related engineering disciplines in positions which, according to the Council, will justify their election; or *Members (with a capital letter) refer to a specific membership grade of the Institute unlike member/members (with a lowercase) which refers to the general membership of the Institute.
 - 2.3.5. hold a technical diploma in agricultural engineering or any closely related engineering discipline of a South African Technikon or a technical institution recognised by the Council; or be registered with the South African Engineering Council (ECSA) as Engineering Technician.and
 - 2.3.6. at the time of application for membership of the Council satisfy them that they have been working actively for a period of at least seven (7) years as engineering technicians in agricultural engineering or closely related engineering disciplines in positions which, according to the Council, will justify their election.

Members

- 2.4. Candidates for election as *Members should: -
 - 2.4.1. hold a degree in agricultural engineering or a closely related engineering discipline of a South African university or a university recognised by the Council; or be registered with the South African Engineering Council (ECSA) as a Professional Engineer. and
 - 2.4.2. at the time of application for membership of the Council satisfy them that they have been working actively for a period of at least three (3) years as agricultural engineers or engineers in closely related engineering disciplines in positions which, according to the Council, will justify their election. or
 - 2.4.3. hold a technological diploma of BTech degree in agricultural engineering or a closely related engineering discipline of a South African Technikon or a technical institution recognised by the Council; or be registered with the South African Engineering Council (ECSA) as engineering technologist. and

- 2.4.4. at the time of application for membership of the Council satisfy them that they have been working actively for a period of at least four (4) years as technologists in agricultural engineering or closely related engineering disciplines in positions which, according to the Council, will justify their election. or
- 2.4.5. hold a diploma in agricultural engineering or a closely related engineering discipline of a South African Technikon or a technical institution recognised by the Council; or be registered with the South African Engineering Council (ECSA) as Engineering Technician; and * Member/Members (with a capital letter) refer to a specific membership degree of the Institute, unlike
- 2.4.6. member/members (with a lowercase) which refers to the general membership of the Institute.
- 2.4.7. at the time of application for membership of the Council satisfy them that they have been
- 2.4.8. working actively for a period of at least five (5) years as engineering technicians in agricultural engineering or closely related engineering disciplines in positions which, according to the Council, will justify their election.

Graduates

- 2.5. Candidates for election as Graduates must: -
 - 2.5.1. hold a degree in agricultural engineering or a closely related engineering discipline of a South African university or a university recognised by the Council; or be registered with the South African Engineering Council (ECSA) as a Professional Engineer. and
 - 2.5.2. at the time of application satisfy the Council that they undergo appropriate practical training and gain experience in agricultural engineering or a closely related engineering discipline.

Companions

- 2.6. Candidates for election as Companions must: -
 - 2.6.1. hold a BTech qualification or diploma in agricultural engineering or a closely related engineering discipline of a South African Technikon or technical institute recognised by the Council or be registered by the South African Engineering Council (ECSA) as candidate Engineering Technologist or Candidate Engineering Technician. and
 - 2.6.2. at the time of application satisfy the Council that they undergo appropriate practical training and gain experience in agricultural engineering or a closely related engineering discipline.

Associates

- 2.7. Candidates for election as Associates must at the time of application by at least 25 years of age but may not qualify for election as Corporate Member and must be working in close association with persons in the agricultural engineering or related disciplines of engineering for the promotion of agricultural engineering.

Students

- 2.8. Candidates for election as Students must be in possession of a matriculation or equivalent qualification and must be receiving training in agricultural engineering or in a closely related engineering branch of a South African university, Technikon or similar institution recognised by the Council.
